The Perfect Chemistry

Harvard Chemical Research was founded in Atlanta Georgia in 1986 with the mission to provide cleaning professionals with the best products and services, all at a competitive price. To this day, the company remains dedicated to the highest quality and service standards in the industry. Harvard's team of professionals are constantly working for their customers to ensure that the products and services that are provided meet the highest standards.

In 2017, Harvard Chemical was acquired by Simoniz USA, a leading manufacturer of cleaning products for food service, healthcare, building maintenance and automotive markets for more than 100 years. The synergy between the two companies has proven to be a strategic and a perfect combination of competencies, the result of which is now one of the most powerful and complete suppliers to the Jan/San industry. Together, the two companies produce over 3000 cleaning products for the widest spectrum of workplace environment that is supported by our two state-of-the-art manufacturing and distribution facilities and five additional strategically located distribution centers, nationwide. Our facilities which total over 350,000 sq. ft. include high speed filling lines, bulk storage tanks, quality engineered material handling systems, modern decorating and silk screen cleaning capabilities, chemical laboratories staffed by professional chemists and engineers and a climate controlled environment that insures cleanliness and productivity.

As a "culture of clean", we pride ourselves on the quality of our products and our commitment to the research and development of products and systems that will clean, restore and protect a wide range of hard surfaces more efficiently and safely. Our carpet and floor care, laundry, hand care, disinfectants, all-purpose cleaners and our complete line up of warewash and kitchen cleaning products are widely used in hospitals, nursing homes, schools, building maintenance and food service establishments.

Directions
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL USE DIRECTIONS
APPLICATION: For disinfection remove heavy soil deposits from surface. Then thoroughly wet surface with a solution of 4 ounces (1/2 cup) of the concentrate per gallon of water. Apply with a cloth, mop, sponge, or coarse sprayer, or by soaking. For sprayer applications, use a coarse spray device. Spray 6-8 inches from surface, rub with a brush, cloth or sponge. Do not breathe spray. Let solution remain on surface for a minimum of 10 minutes. Rinse or wipe dry with a clean cloth or sponge or allow to air dry. Rinse all surfaces that come in contact with food such as countertops, exterior surfaces of appliances, tables and beverage with potable water before reuse. Do not use on metals, glassware, dishes or appliance interior surfaces as a disinfectant. Prepare a fresh solution daily or more often if the solution becomes diluted or visibly soiled. Rinsing of floors is not necessary unless they are to be waxed or polished. This product is not for use on medical device surfaces.
